

# PerAda Workshop on Pervasive Adaptation at

## SASO 2008

## 21 October 2008, Venice

## [www.perada.eu](http://www.perada.eu)

The first PerAda workshop on pervasive adaptation will be held in conjunction with the second IEEE International Conference on Self-Adaptive and Self-Organizing Systems being held in Venice from 20-24 October 2008.

This PerAda workshop invites visionary or conceptual position papers as well as technical papers addressing the challenges in pervasive adaptation. The discussion environment allows for presenting novel ideas in an informal but cross-disciplinary way. The aim is to stimulate exchange, interaction, and comparison of approaches, methods, and ideas both theoretical and applied.

### VENUE

The PerAda workshop as well as other SASO sessions will take place at the Congress Center at San Servolo Island in Venice located 10 minutes away from central Piazza San Marco via boat taxis.

### SUBMISSIONS

All submissions should be 6 pages in length and formatted according to the IEEE Computer Society Press proceedings style guide. Papers will be reviewed by at least three members of the Programme Committee. The proceedings will be published by IEEE Computer Society Press, and made available on the IEEE digital library.

### IMPORTANT DATES

5 JULY - Submission deadline

5 AUGUST - Notification of accepted papers

21 OCTOBER – PerAda workshop

**MORE INFORMATION** at [www.perada.eu](http://www.perada.eu)

Scientific Coordinator: Emma Hart [e.hart@napier.ac.uk](mailto:e.hart@napier.ac.uk)

General contact: Jennifer Willies [j.willies@napier.ac.uk](mailto:j.willies@napier.ac.uk)

### TOPICS OF INTEREST INCLUDE

(but are not limited to):

- Adaptive Software
- Evolvability and adaptation of pervasive systems
- Biologically-inspired paradigms for pervasive adaptation
- Methodologies/frameworks for building pervasive adaptive systems
- Pervasive Applications and Artefacts
- Self-\* properties in pervasive adapting systems
- Adaptation in networked societies
- Trust & security in pervasive, adapting applications

The PerAda Workshop is organised by the PANORAMA Coordination Action, funded by the European Commission's FET Proactive Initiative on Pervasive Adaptation
